Dormitory Regulations for the Student Dormitories of the Studentenwerk der Katholischen Hochschulgemeinde Aachen e.V.

Foreword and mission statement

The Studentenwerk der Katholischen Hochschulgemeinde Aachen e.V. (Student Services of the Catholic University Community Aachen) is primarily aimed at adults of different cultures, nations, religions and world views, lifestyles, confessions and with a wide range of physical impairments. In its residential homes, it specifically offers students of the Aachen universities living, learning and experience spaces in which they can develop their personalities, religious, social and professional skills and talents. These rooms and areas are intended to be protected and non-discriminatory places where people are accepted, respected and safe. The spaces should be characterised by a mutual climate lived with mindfulness. This concerns a lifestyle that does not harm other people and respects the right to freedom of expression, freedom of religion and the right to sexual self-determination. For living together, the Student Union of the KHG Aachen e.V., as a church-supported institution, implements measures and rules of conduct to protect against sexualised violence and obliges the residents to deal with closeness and distance in a mindful and responsible manner.

This mission statement is put into practice in all our partnerships with other organisations and institutions in the public sector, as well as in the four student halls of residence and at Chico Mendes, the Studentenwerk's student pub. The employees of the Studentenwerk ensure respectful treatment of the residents of their facilities and the guests in their houses. In the event of violations, the employees offer trustworthy discussion rooms and commit themselves to dealing with discriminatory statements and actions.

The view of living together in a hall of residence of the KHG Student Union requires consideration and understanding for each other. The following dormitory regulations serve these principles and are divided into general principles and dormitory-specific explanations.

General principles

Every resident is obliged to actively participate in shaping life in the hall of residence every semester and to show willingness to take on a specific task within the hall of residence, be it as a hall or corridor spokesperson, as a person responsible for common events, etc. The minimum amount of time required for this commitment is set individually for each hall of residence. The respective minimum amount of time required for the commitment is set individually for each hall of residence and is listed in the following chapter.
2. Order and cleanliness in the hall of residence are important aspects that everyone must observe in order to live together harmoniously:

 - b. There must be no dirty dishes in the communal

 8. Only residents are allowed to use the washing machines. The rules laid down by the home must be observed.
 9. Repairs and maintenance to all in-house facilities are always carried out by the KHG Student Union. For this purpose, a service request must be submitted online via the Studentenwerk website. Defects in the rented property must be reported immediately in this way. Consequential damage caused by non-notified defects will be charged to the tenant.

10. House and room keys may not be copied. If keys are
